

## INFORMATION & INSTRUCTIONS

### General use

Cotton, polyester, polyester/cotton blends, polyester and work wear

### Characteristics

- Extra wide roll 19”(48cm)
- Can be washed at 140°F (60°C)
- The backing material is sticky which allows the production of very fine detailed logos allowing color to be applied on color with perfect registration.
- Very easy to weed; if any part of the logo lifts up, it can be easily repositioned.
- Available in 9 colors: black, blue, gold, green, pink, silver, purple, red, aqua.
- GlitterCut colors may NOT be overlapped with each other.
- Manufactured on a sticky backing for easy weeding and application.

### Application

- Position GlitterCut in cutter with matte side up.
- All designs should be cut mirrored.
- Increase your cutting pressure slightly to aid you in weeding and making the cut line more visible.
- Once cut, weed out unwanted area with weeding tool or exacto knife.
- Position weeded GlitterCut film on shirt.
- Ensure heat press is set at 300°F (150°C).
- Press film with medium to firm pressure for 20 seconds at 300°F (150°C).
- Release clear film when transfer is cold.

### Washing Instructions

- Machine washable up to 140°F (60°C)
- Hang dry recommended
- Do not dry clean
